

The Adelaide Protein Group (APG) is hosting a seminar followed by a social mixer

When

Tuesday December 1st 2009
4-6 pm

Where

Merlot Seminar Room
The Australian Wine
Research Institute
(see below or refer to ARWI
website for map)

The APG is a special interest group of the ASBMB

The group aims to foster interaction and collaboration between South Australian scientists with an interest in all aspects of protein biology

Protein Science for the Nintendo Generation

Prof Marc Wilkins

School of Biotechnology and Biomolecular Sciences,
University of New South Wales

'Understanding the Dynamics of the Interactome'

Prof Marc Wilkins, an internationally recognised protein scientist and pioneer in the proteomics field, will talk about his latest research on the dynamics of protein interaction networks and the methylproteome. This includes work on the Interactorium, a new software platform which revolutionises the way existing protein structure and function databases are visualised and used.
