## The new range of biomolecular imagers

## See what others easily miss

GE Healthcare Life Sciences would like to invite you and your colleagues to attend a brief seminar on recent developments in the biomolecular imaging range offered by GE Healthcare. The seminar will be followed by a hands-on session to familiarize users with the systems available.

The presentation will focus on accurate approaches to quantitative imaging, western blotting and the many applications supported.

**Date** : Wednesday, 2<sup>nd</sup> of December  
**Time** : 10.00 AM – 1.00 PM

*Refreshments provided*

**Venue** : *Flinders Medical Centre*  
Flinders Proteomics Facility  
Dept Human Physiology  
Bedford Park  
Rm 6E: 110 (seminar)
